

Masud Rana Mushfiq

Computer Science Student • Web Developer • AI & ML Enthusiast

masudranaorg71@gmail.com | Bangladesh | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate at University of Rajshahi with a strong academic record (CGPA 3.70/4.00) and hands-on experience in web development, and competitive programming. Proven ability to build real-world applications using React, React Native and modern Front-end and Back-end frameworks. Passionate about solving real-world complex problems and active open-source contributions on GitHub.

EDUCATION

University of Rajshahi, Bangladesh

2022 – Present

B.Sc. in Computer Science and Engineering

- ▶ **CGPA: 3.70/ 4.00 (3rd Year)**
- ▶ Relevant coursework: Data Structures & Algorithms, OOP (Java), Database Systems, Computer Networks

PROJECTS

Rajshahi University Employee Profile System

profile.ru.ac.bd

Laravel, PHP 8.3+ • React + TypeScript • REST API • Spatie Permission

- ▶ Built a full-stack profile, payroll and directory platform replacing a legacy system for 4,586 employees — self-service academic, employment and research records, TOTP two-factor auth, five scoped admin roles.
- ▶ Implemented an auditable payroll pipeline (staging → review → approve → publish) over 85+ earnings and deduction columns, with A4 CV and Bangla salary-bill PDFs, download audit logging, and a key-gated directory

Rajshahi University Student Management System

[Rajshahi-University](#)

Laravel, PHP 8.3+ • mPDF • Spatie Permission, Activity Log • REST API

- ▶ Built a student information system holding one authoritative record, served through organization-scoped panels for Academic, Dean, Department and Hall offices, with university-wide breakdown dashboards.
- ▶ Generated official Bengali PDFs — admission forms, registration cards, migration certificates — with barcodes and QR codes, plus spreadsheet exports, a capability-scoped integration API, and a field-level activity log.

TryLense ▶ Find your perfect eyewear with virtual try-on before you buy

[Try-Lense](#)

React • Vite • Meta Pixel • Face Tracking

- ▶ Built an online eyewear platform with AI-powered virtual try-on, Meta Pixel integration, and fake-order detection with blocklist logic to enhance customer experience and reduce fraudulent orders.

Ticket Booking App

[Ticket-Booking-App](#)

React Native • TypeScript • Expo Go • Firebase

- ▶ Developed a full-stack ticket booking app with Firebase, featuring auth, booking, and real-time synchronization.
- ▶ Solved concurrent seat booking conflicts by designing a mechanism to prevent multiple users from booking the same seat simultaneously (Pessimistic locking strategy in Firebase).

Task Poster Mobile App

[Task-Poster-App](#)

React Native • Expo Router • Firebase

- ▶ Developed a real-time task marketplace app with Firebase, featuring job posting, acceptance, and user interaction.
- ▶ Implemented authentication, wallet transactions, admin controls, and real-time updates.
- ▶ Built rating and verification systems to enhance trust and user engagement.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, TypeScript

Frameworks & Libraries: React, React Native, Expo Go, Laravel

Databases: MySQL, PostgreSQL

Tools & Platforms: VS Code, Git & GitHub, Jupyter Notebook, Google Colab, LaTeX
